Diagnostic Imaging & Advanced Laboratory Relief Policy

CLINICAL CATEGORY

Diagnostic, Lab & Imaging Relief

MAXIMUM BENEFIT CAP

INR 50,000 per diagnostic episode

1. Objectives & Diagnostic Mandate

To eliminate diagnostic delays by funding advanced radiological imaging and specialized clinical laboratory investigations recommended by attending medical specialists.

2. Covered Diagnostic Modalities

- High-Resolution Magnetic Resonance Imaging (1.5T / 3.0T MRI brain, spine, musculoskeletal).
- Multi-Slice Contrast Computed Tomography (CT chest, abdomen, angiography).
- Doppler Ultrasound Sonography and 2D Echocardiography.
- Comprehensive Histopathology, Core Biopsies, and Cytology evaluations.
- Molecular diagnostics, RT-PCR panels, blood cultures, and hormone assays.

3. Approved Diagnostic Networks & Reimbursements

Investigations performed at empanelled hospital radiodiagnostic departments or NABL-accredited diagnostic labs qualify for 80% to 100% instant reimbursement. Emergency urgent scans ordered by ER staff are reimbursed at 100% rate without prior pre-authorization.

4. Documentation Requirements

A valid prescription with clinical indication from a registered medical practitioner and the itemized radiology/pathology invoice with QR code or official lab seal must be submitted.

5. Exclusions

Routine corporate wellness executive checkups and non-clinical genomic ancestry tests are not covered.
